

SSAE 16 SOC 1, SSAE 16 SOC 2, PCI Consultants Lazarus Alliance Interview with Tobey Rector

As one of the leading SSAE 16 SOC 1, SSAE 16 SOC 2, PCI consultants in the world, we're dedicated to proactive cyber security. One of our clients is Tobey Rector. He is the Technology Manager at [CrossView](#).

The CrossView team was searching for a proven team of cyber security, SSAE 16 SOC 1, SSAE 16 SOC 2 and PCI standard experts to help CrossView manage their B2C and B2B e-commerce solutions. Due to the complexity managing cyber security, SSAE 16 SOC 1, SSAE 16 SOC 2 and PCI standards, Tobey and his team needed a trusted provider to help them streamline their security, audit, risk and compliance.

Tobey's interview with our SSAE 16 SOC 1, SSAE 16 SOC 2, PCI Consultants

Q: Tobey, please give an example how Lazarus Alliance helped you in your security efforts.

A: Prior to working with Lazarus Alliance, the business of audit and compliance and risk management was a real tedious and manual process. You guys brought this deliberate and methodical methodology to us that have made a huge difference in how we accomplish the requirements.

Lazarus Alliance has automated tools like ITAM and proactive audit scripts and system automation that had transformed the compliance process. It used to be rush-rush-rush scrambling to find artifacts and provide audit responses but Lazarus Alliance eliminated all that disruption.

Q: Tobey, CrossView also achieved both the SSAE 16 SOC 1 and SSAE 16 SOC 2 compliance attestations by working with Lazarus Alliance. How has Lazarus Alliance helped you in this area in comparison to your previous audit provider?

A: When we switched from our previous assessor to Lazarus Alliance, it was a "Night and Day" difference! Lazarus Alliance's proactive cyber security methodology brought our audit and compliance assessments out of the "Stone Age" and into the new modern millennium. What a huge difference.

Lazarus Alliance really made the compliance process accessible and easy to understand. We used your ITAM platform while we worked with Lazarus Alliance consultants. You guys made the audit and compliance process so much better.

Q: Tobey, in a few words, how would you describe Lazarus Alliance's expertise in the security industry?

A: We have been working with Lazarus Alliance for years now. You guys are our golden standard when it comes to audit & compliance, risk management and all things cyber security. When we have a question, we always depend on you guys to provide us with expert guidance and Lazarus Alliance always delivers.

Q: Tobey, What are some of the challenges companies like yours face hiring cyber security consultants?

A: It's tough finding qualified cyber security talent and when time and funding is constrained, working with Lazarus Alliance took all that pain and pressure away. Our employees know they have you guys available around the clock and when they have doubts or questions they always consult Lazarus Alliance for guidance.
