

Lazarus Alliance, Inc. Proactive Cyber Security® Services

For more than 20 Years, we've remained the most trusted name in proactive cybersecurity and financial audit & compliance, risk assessment & management, policy & governance and security testing services. In any jurisdiction and in all industries. We provide compliance, risk, policy, security testing, and CISO Cybervisor® services to our global clientele.

Working with Lazarus Alliance

We are very flexible with how we work with clients and partners alike. The most common are as a ...

1 **MSP Partner Provider**

Many MSPs, MSSPs and similar service provider out there offer client readiness services, hosting and a myriad of professional services to their customers. Lazarus Alliance makes the perfect partner to complete the client's mission in achieving certifications, authorizations, accreditations and attestations we provide. Everyone loves a Turn-Key solution!

2 **Sub-Contract Partner Provider**

We have very specialized skills and a formidable service offering rivalled by few. In many cases, a service provider has clients with specialized needs that cannot be fulfilled in-house. Turn to us to help complete the mission! We will represent your brand well and attend to your clients as if they were our own!

3 **Prime Partner Provider**

We are accustomed to providing front line services covering the extensive service offerings in our portfolio. We are always up for the challenge answering the RFI, RFP, or other specialized service requirement your agency, organization or company anywhere in the world has. Our Veteran-Owned Small Business (VOSB) and GSA Multiple Award Schedule (MAS) MAS contract 47QRAA22D009A is an added bonus.

Lazarus Alliance certification or attestation life-cycle

We are certified, accredited, and authorized; Lazarus Alliance is Proactive Cyber Security®.

- 1 Stage 1 Gap:** This phase is used to determine an organization's readiness for the Stage 2 audit phase. Governance, Technology, Logistics and Human Resources undergo a gap assessment.
- 2 Readiness Option:** If it is determined that the organization is not yet ready for the Stage 2 audit, a gap report will be issued and remediation coordination will be optionally supported.
- 3 Stage 2:** Once an organization is ready for the Stage 2 audit, a full examination will get underway.
- 4 5 6 7** A full examination of the organization's Governance, Technology, Processing Facilities and Human Resource control implementations will proceed until an attestation or certification determination is reached.
- 8 Annual Monitoring:** Following a successful certification or attestation audit, the annual audit renewal cycle begins.
